

# KAGAN TIMUR

Dublin, IE

[kagan.timur.ds@gmail.com](mailto:kagan.timur.ds@gmail.com) ◇ [LinkedIn](#) ◇ [GitHub](#) ◇ [Website](#)

## SUMMARY

---

Data Scientist specialized in LLMs and ETL Pipelines, with expertise in fine-tuning transformer models, retrieval-augmented generation, sentiment and semantic analysis. Experienced in deploying scalable AI models using Python, Docker, and TensorFlow for high-volume text processing. Applied LLMs in signal-based marketing, identifying the right customers for clients by analyzing behavioral signals and optimizing targeting strategies.

## TECHNICAL SKILLS

---

**Programming Languages & Tools:** Python (NumPy, SciPy, Pandas, scikit-learn, PyTorch), SQL, PySpark, Tableau, Pinecone, MongoDB.

**NLP & Model Optimization:** Hugging Face, OpenAI APIs, GPT, BERT, Transformers, spaCy, NLTK, Quantization, Pruning, Sentiment Analysis, Text Classification, Semantic Search.

**Cloud Technologies:** Docker, AWS (S3, Glue, Sagemaker, ECS).

## EXPERIENCE

---

### Generative AI Annotator, Covalen (Meta LLaMa Project), Dublin

May 2025 – Present

- Reviewed high-risk content (including CSE, violence, impersonation, fraud, and hate speech) in alignment with Meta's global Safety and Abuse policies.
- Conducted G2P (grapheme-to-phoneme) phonetic evaluations using IPA principles to validate pronunciation rules and phonotactic accuracy for TTS-related tasks.
- Performed data quality checks and ongoing audio evaluations to ensure high-quality synthetic speech datasets.
- Attended regular training and update sessions to stay current on policy changes, project developments, and evaluation requirements.
- Partnered with legal, ethics, and safety teams to ensure culturally aware and contextually appropriate AI behavior.

### Data Scientist, Orcawise, Dublin

Aug 2023 - Aug 2024

- Developed AI-powered solutions to extract actionable insights from real-time data, directly supporting sales and marketing strategies.
- Enhanced lead qualification and customer targeting, contributing to a 20% improvement in engagement rates.
- Built automated ETL pipelines for real-time data ingestion, ensuring up-to-date customer insights.
- Collaborated with sales and marketing teams to align AI solutions with business objectives, streamlining digital engagement initiatives.
- Deployed scalable cloud-based models that supported efficient, data-driven decision-making.

## EDUCATION

---

### MS in Data Analytics, CCT College Dublin, Ireland

Feb 2023 - Jun 2024

- **Thesis: AI-Driven Business Insights:** Collaborated with Orcawise for a new product.

### Bachelor of Business Administration and Management, University of Anadolu, Turkey Sep 2014 - Jun 2019
